

Riding the Regs

Many of the pilots that came before us didn't make it because of their mistakes. Many regulations were created from their errors. Attend this seminar to see how history through regulations has made aviation the safest mode of transportation. The presentation will discuss in simplicity, the elements of the most commonly required regulations which govern our everyday flight operations. We will review the essential portions of Parts 61 and 91 in an easy to understand format. Don't relive the accidents of the past; come to this seminar and how regulatory compliance can save your life. Click on the link below and register TODAY.

Directions: Republic Airport can be reached via LI Expressway to Route 110, and both the Southern State Parkway or Sunrise Highway to Route 109.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
